

April 2021

Dear Business Owner

Brighten your business with floral displays

I'm contacting you from Kings Park Nursery regarding your hanging basket display requirements for the coming year. Kings Park Nursery is owned and operated by BCP Council.

Brightening our shop fronts has never been so important to attract trade inside and to provide a cheerful and bright environment for our customers.

We've a limited supply of hanging baskets for 2021 and recommend that you reserve yours as soon as possible, to avoid disappointment.

The baskets are £35 supplied delivered and installed. Maintenance for an 18-week period from June to October is a further £60. This includes watering, feeding, and general maintenance.

If Kings Park Nursery supplies the displays, then any that are stolen or beyond repair will be replaced once within the season. For full terms and conditions, please see the booking form.

I would be grateful if you could confirm any possible orders by 30 April 2021. We cannot guarantee supply of floral displays after this date due to availability of plants.

Thank you for your custom and I look forward to hearing from you.

Yours faithfully

Chris Evans

Terms and conditions of sale

The pricing stated reflects the costs of materials and running a watering team to maintain the plants.

The 'Summer Season' is based on a 17-week period running from approximately week beginning June 7 2021 to week ending October 10 2021. Displays will not be removed until week beginning October 17 2017.

Please note that we can only provide a maintenance service if its economically viable to do so. That is, we must have an optimum number of displays to maintain overall, otherwise we can only supply them.

If there is any danger of inclement weather at the beginning of June, then display installation may be delayed. If the displays begin to deteriorate towards the end of the season due to weather, they may be taken down a week earlier.

The floral displays will be watered with feed throughout the season, picked over regularly and pesticide used if appropriate. If Kings Park Nursery supplies the displays, then any that are stolen or beyond repair will be replaced once within the season.
